

Girl Scouts can be a year-round activity for troops and girls. Just because school is out for the summer does not mean troops and girls should not continue to be active and involved in their neighborhood, community, or around the state!

Summer months provide a unique opportunity for Girl Scouts to participate in activities that require warmer weather or take longer to accomplish. This council-sponsored patch program is designed to recognize a Troop's or girl's summer activities – many of which, Troops and girls take part in anyway.

In order to receive the **FREE** council-customized Summer Bucket List patch, a girl must complete **three (3)** of the following suggested summer activities – with social-distancing and virtual options – and complete **one (1)** of the suggested Service Projects (please check the ones that are completed). Plan to attend a fun “virtual” activity with your troop, your family, or your friends. **Deadline to return form and pick up patch is Monday, August 31, 2020.**
