

Girl Scouts can be a year-round activity for troops and girls. Just because it's the winter season does not mean troops and girls should not continue to be active and involved in their neighborhood, community, or around the state – abiding by state health guidelines, of course!

Winter months provide a unique opportunity for Girl Scouts to participate in activities that require chillier weather or take longer to accomplish. This council-sponsored patch program is designed to recognize a Troop's or girl's winter activities – many of which, Troops and girls take part in anyway.

In order to receive the **FREE** council-customized Winter Bucket List patch, a girl must complete **three (3)** of the following suggested winter activities – with social-distancing and virtual options – and complete **one (1)** of the suggested Service Project (please check the ones that are completed). Plan to attend a fun “virtual” activity with your troop, your family, or your friends. Email form to [customercare@nmgirlscouts.org](mailto:customercare@nmgirlscouts.org). **Deadline to return form and pick up patch is Sunday, February 28, 2021.**
